

Community Land Management Plan

10. Community Buildings

Acknowledgement of Country

We acknowledge and pay our respects to the Kurna people, the traditional custodians whose ancestral lands we gather on. We acknowledge the deep feelings of attachment and relationship of the Kurna people to country and we respect and value their past, present and ongoing connections to the land and cultural beliefs.

Overview of Community Buildings

Community buildings play a pivotal role in improving the quality of life of the community. They are identified by both the community and the service sector as being vital to the delivery of affordable services that meet the community's needs.

Many of Council's community buildings are multi-functional and can cater for a variety of community and commercial activities such as art groups, service clubs, church groups, Council run community programs and events, disability and support services.

Purpose for Which the Land is Held

Community buildings are provided for one or more of the following purposes:

- Provide community buildings to the local and wider community for recreation, community and commercial activities.
- To encourage multi-use of Council buildings.

Management Proposals for the Land

Council will manage development and maintenance of community buildings in accordance with all legislative requirements and Council's strategic documents which include the Strategic Plan, city-wide strategies, the Strategic Asset Management Plan and applicable masterplans.

Council's strategic documents are updated periodically. They provide guidance for the planning, management and decision making for Council's community land. A full reference list of the legislative requirements and strategic framework documents is contained within the Community Land Management Plan (CLMP) Overview.

Any proposals which are identified for any of the community buildings are subject to Council approval and available funding (external grant funding or Council financed).

Council's key strategic management objectives for community buildings include:

- Provision of community buildings which provide single or multi-functional use for the community's benefit.
- A range of buildings to help create a strong, cohesive and creative community.
- To facilitate the use of community building car parks for the installation of commercial car charging facilities.
- Facilitate occupation of community buildings by community groups for community purposes as set out in any lease, licence or hire agreement granted by Council.
- Facilitate occupation of community buildings for a commercial use as set out in any lease or licence granted by Council.
- Managed and maintained in a reasonable, safe and accessible condition and which meets the standards of *Disability Discrimination Act* (DDA) and Building Code of Australia (BCA).

Overview of Community Buildings

Description of the Land

Within this plan a table will be included which will provide the following information:

- Name of land
- Street address
- Certificate of title, plan and allotment
- Owner of the land
- Dual category CLMP number
- Crown land trust or dedication granting the City of Playford as custodians

There may be occasions where a land parcel has been assigned multiple community land categories, referred to as “dual categories.” For example, the land parcel could have a dual purpose of a community building and also include a park or reserve, in these instances the land parcel would appear in both the Community Buildings and Parks and Reserves CLMPs. The table contained within this plan will indicate where there are dual categories for land parcels.

Further information including lease and licence details for land parcels are referenced in the Community Land Register available on the City of Playford website.

Leasing, Licensing & Permits

General information regarding Council granting of a lease and licence over community land is contained within the CLMP Overview.

Lease, licence or permit agreements may be granted which are consistent with this plan. In the case of Crown land, the agreement must also be consistent with the dedicated purpose of the land.

Granting of a lease or licence must be in accordance with the conditions set out in Section 200 and 202 of the *Local Government Act 1999*.

Details of current lease or licence agreements are included in the Community Land Register available on Council's website.

Objectives, Targets and Performance Measurement

Council is required within the CLMPs to set out its vision for the land through objectives and performance targets, and how Council proposes to measure its performance against its objectives and targets.

Appendix A sets out the objectives, performance targets and measures for community buildings.

10. Community Buildings

Description of the Land

Name of Land	Street Address	Plan and Lot Number Certificate of Title	Owner	Dual Category CLMP Number	Trust or Dedication Granting the City of Playford as Custodians

Appendix A

Community Buildings Objectives, Performance Targets and Measures

Objectives: Specific and measurable actions needed to achieve Council's vision for management and development of community land.

Performance targets: The goal or standard to be aimed for or reached.

How Performance will be measured: Action taken to determine if objective/target has been reached.

Objectives	Performance Targets	How Performance will be Measured
To provide opportunities for the community to participate in a range of services and activities including recreational, cultural, educational, social and personal development.	Provide safe, quality and appropriately maintained facilities.	Periodic maintenance and asset renewal undertaken in accordance with work schedules and Strategic Asset Management Plans.
	Customer requests in relation community building maintenance are investigated and action taken where practicable.	Review customer request response actions and timeframes.
Develop and maintain an inventory of all buildings.	To keep adequate records of the condition of each building.	Regular review and update of building registers.
Ensure all other improvements such as car parking, driveways and landscaping are provided where considered necessary and are maintained to be of a reasonable standard for use by users and visitors.	All existing and new improvements are in a reasonable condition and can be accessed by users and visitors and not pose a safety hazard.	Regular inspections of improvements in conjunction with building inspections and rectification of any hazards by Council or the tenant.
Lease, licence or hire agreements to be made available to appropriately competent people, groups or entities.	To negotiate occupancy agreements to ensure that the responsibility of the tenant, hirer and Council are clearly defined and the best management of facilities is achieved.	<ul style="list-style-type: none">• Maintenance and regular update of a lease/licence register.• Monitoring and maintaining bookings through Council's electronic booking system.
