5. Description of proposed work or reason for access

Resident / Contractors are responsible for supplying their own lock and key that will be daisy chained to Council's gate lock and chain. Council will make contact with organisers to arrange the unlocking or relocking of the gate, once the application has been approved. A permit will be issued upon approval. Only short term access will be considered.

Terms and conditions of issue:

- The authorised organisation / company / person shall complete and sign the indemnity form and return to Council along with the application
- Provide a copy of Public Liability Insurance for the contractor or subcontractor crossing Council land (if applicable)
- Access must be scheduled during a dry period to avoid excess soil disturbance. At all times care should be taken to reduce dust
- Any damage to Council or private property resulting from this activity is to be restored to original condition, as soon as practicable and at your cost
- All pedestrians have right of way. Speed limit on reserve is not to exceed 5km per hour
- Fire restrictions and precautions must be adhered to at all times
- The gate will be unlocked (when applicable) only when accessing the reserve for the above said purpose and locked at all other times
- The permit is not transferable
- No other access / activities are allowed other than the reasons indicated above
- The Council take no responsibility for any loss by any person or association whatsoever as a result of any unlawful act by any person or persons that can be attributed to the access of the reserve
- Lock and daisy chain to be supplied by resident / contractor
- Council reserve the right to destroy/cut the lock, if it has not been removed as per the agreement
