

On-site Wastewater Systems Engineers

A 'wastewater engineer' is defined in the Wastewater Regulations as an engineer who is a member of the Institution of Engineers Australia of the category "Chartered Professional Engineer" or is registered on the National Professional Engineering Register administered by that institution and has experience in wastewater systems or geotechnical engineering.

Below is a list of known engineers, in alphabetical order, who may be able to assist you with your wastewater application. This is not a comprehensive list, and there may be other qualified wastewater engineers not included here:
