NOTE:

This Traffic Guidance Scheme was developed by competent and experienced persons and is, in accordance with the requirements outlined in Australian standard - AS1742.2 and SA Standards. AOCTC does not accept responsibility or compliance of this plan when implemented or monitored by external parties.

This plan is designed as per SA Standards to ensure the safe movement of vehicular and pedestrian traffic around an active worksite. Elimination of these hazards is identified to ensure the safety of workers from passing traffic.

Traffic Controllers will wear high-visibility and the appropriate Personal Protective Equipment complying Australian WH&S Standards. Traffic Vehicles will be equip with appropriate vehicle mounted warning device.

It is the responsibility of the client to obtain the correct permits unless otherwise agreed.

This Plan is not to scale

Location of the traffic devices shown may vary, to improve visibility and safety.
