

Building Spaces Support Kalara Reserve Original Clubrooms

Planning is underway to repurpose the original Kalara Reserve facility into a dedicated community space, creating more opportunities for broader community access and use.

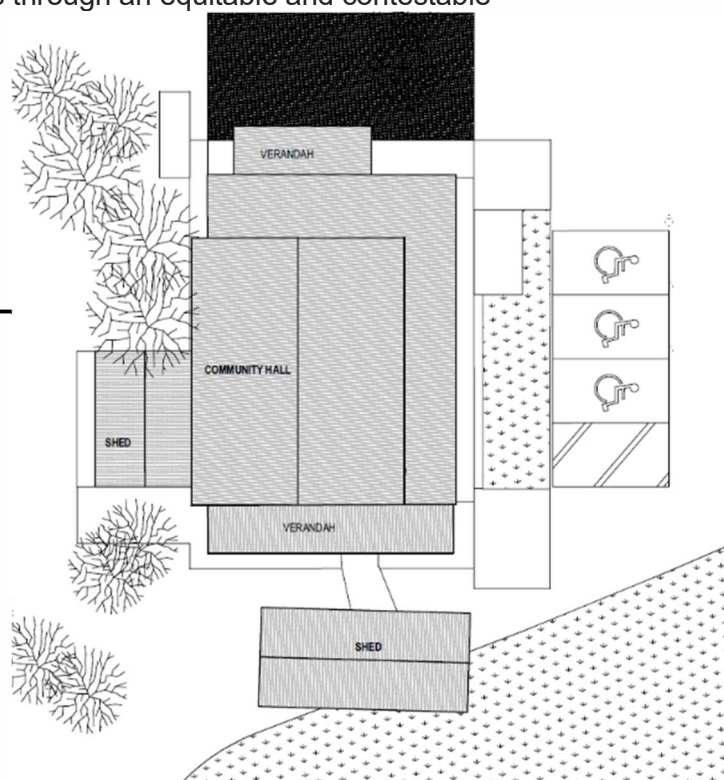

The project responds to priorities identified in the City of Playford's Sports Facility Strategy, which called for shared-use, flexible infrastructure that supports co-tenancy and encourages broader community participation.

With the new clubrooms now in place, Council has opened an Expression of Interest process to local community organisations through an equitable and contestable process. The Building Spaces support category aims to support Council's goal of services run from Council facilities being contemporary and relevant, and to provide opportunities for new community organisations to gain support from Council to deliver positive outcomes that meet community need.

Key Features

Key Features of the site include:

- community hall
- kitchenette
- male, female & ambulant toilets
- storeroom
- verandah
- security alarm and potential fob control entry

Shared parking and some green space may be available but is shared with other site users.
